To whom so ever it may concern

RUD India chain Pvt Ltd has retrofitted our Drag Chain Conveyor for Bed Ash handling in July-2015 in our **Spectrum Coal and Power limited, 50 Mw power plant** located at Ratiza, Korba , Chhattisgarh.

Equipment retrofitted : Drag chain conveyor
Model : Double strand 142 mm pitch
Capacity : 40 TPH
C-C distance : 18.675 m
Material conveyed : Bed Ash

RUD India has resolved all the issues pertaining to the drag chain conveyor and there was no break down occurred till date.

These conveyors are running satisfactorily since installation and we also appreciate service and support provided by M/S RUD India.

Regards,

For Spectrum Coal and Power Limited
